FCS5AC RIP-R-STRIPPER

5" Handheld Floor Covering Stripper

General
EQUIPMENT COMPANY

Removes:

- **CERAMICS**
- **SHEET LINOLEUM**
- **VCT**
- **GLUED CARPET**
- **GLUED HARDWOOD**
- **THICK WALLPAPER**

The **FCS5AC** Handheld **RIP-R-STRIPPER** is a highly productive solution for removing a wide range of floor covering materials found on both commercial and DIY projects. Its small size and lightweight design makes it highly productive in hard to reach areas such as bathrooms, closet areas, and stairways.

The FCS5AC works circles around larger stripper machines that lack the same agility and maneuverability. Use it to also remove accumulated layers of thick wallpaper or other strippable materials from vertical surfaces. The ergonomically designed handle enhances balance and helps reduce vibration levels. Adjusts for use under toe-kick panels. The 5 inch (127 mm) scoring blade can be used to remove coverings from both wood and concrete surfaces.

2-Position Handle

Sealed Ball Bearings

Auto-Stop Carbon Brushes

Paddle Type ON/OFF

Integral Current

Interruption Protection

Operating Environments

Non-hazardous type locations

Electric Motor

1400 W, 115 VAC, 60 Hz, 12 A

Nominal Diameter

3100 / minute

Extension Cord

16-2 SJ x 8 foot (2.4 m) length

Dimensions

15" L x 5" W x 8" H (handle extended)

Weight

9 lbs (4.1 kg), less blade
