M240 ONE-MAN HOLE DIGGER

1.3 Hp Hand-Operated Auger

* Available auger sizes: 2 1/4" • 3 1/4" • 4" • 6" • 8"

The **M240H Hole Digger** is the first one-man, handheld hole digger to feature an all-position, 4-Stroke engine. No more mixing oil with gas. No more separate fuel cans. Features a **1.3 hp Honda engine** that meets current EPA emission standards, eliminating any smoky exhaust mess. Other key features include an **all-metal centrifugal clutch**, **precision spur gear transmission**, **Comfort-Zone operator handle**, and **Magura twist grip throttle control**. Performance to dig up to an 8 inch diameter hole in a variety of soil classifications. Built with oversized ball bearings, heat treated shafts and machine-cut gears designed to deliver long service life and high ROI. The unique Comfort-Zone operator handle design helps maximize strength while reducing the effects of kickback and body fatigue.

Engine:

1.3 hp Honda GX35, all position, 4-Stroke

Starter:

Hand rewind

Fuel:

Gasoline, unleaded, automotive grade

Transmission:

Totally enclosed, spur gear, grease lubricated

Maximum Digging Torque:

51 ft lbs

Nominal Auger Rotation Speed:

166 rpm (no load)

Auger Driver Connection:

1 inch (25.4 mm) round

Standard Auger Digging Length:

30 inch (762 mm)

Available Auger Extension:

15 inch (381 mm), plain-tube type

Weight:

27 lbs (12 kg), less auger
